

## *Mini trucks coming to the Northern Beaches in June*

When access is restricted and difficult, or if a small or premium mix is required, you need to choose from our fleet of mini concrete trucks. Able Concrete specialises in small load sizes and tricky pours - even those requiring transport by water.

Choose from standard concrete mixes to our designer concrete Ablestone and give your driveway, internal floors, alfresco areas, or pool surrounds that 'wow' factor.

**Forget mixing it yourself. Let Able Concrete do the mixing for you.**
